Location: Mohali / Chandigarh, India

Professional Summary

Software Engineer with 5+ years of experience building scalable web applications using PHP, Laravel, and Node.js**,with 3+ years** of hands-on experience in the **MERN stack** (MongoDB, Express.js, React.js).Experienced in developing ERP systems,fintech platforms, and AI-driven automation tools. Strong background in REST API design, database optimization, payment gateway integration, and scalable backend architecture.

Technical Skills

Backend: PHP, **Laravel**, **Node.js**, **Express**.js
Frontend: React.js, Angular(basic), JavaScript, TypeScript, HTML, Bootstrap
Databases: MySQL, MongoDB, **PostgreSQL**, **Firebase**
Integrations: Stripe, Razorpay, Twilio, **OpenAI** API, Zoom API
Real-Time: WebSockets, Socket.IO
Tools: Git, Docker, Postman, AWS, CI/CD
Concepts: REST APIs, Microservices, Authentication, Performance Optimization

Professional Experience

Software Developer – **MAVRIQ Webtech** Pvt. Ltd, Mohali (Jan 2025 – Feb 2026)

• Built AI-powered voice calling agents using Node.js with **OpenAI**, Twilio, and **ElevenLabs**.
• Developed backend APIs for automated communication workflows and **chatbot services**.
• Implemented real-time communication features and scalable backend services.

Backend / Full Stack Developer – **Sofineer**, Mohali (Jun 2022 – Jan 2025)

• Developed ERP and CRM platforms using Laravel and Node.js.
• Built scalable APIs and feature-rich admin dashboards.
• Integrated third-party services including Stripe, Razorpay, Firebase, and Zoom APIs.
• Optimized database queries improving response time by ~25%.
• Mentored junior developers and conducted code reviews ensuring quality delivery.

• Integrated **third-party APIs** (Stripe, Zoom, Firebase) to enhance platform functionality, security, and user experience.

Junior PHP Developer – **Chohan Infotech**, Mohali (Feb 2020 – May 2022)

• Developed PHP and WordPress applications and WooCommerce stores.
• Built APIs and integrated payment systems for client projects.
• Maintained and optimized multiple production websites.

Key Projects

AI Automated Calling Agent

• Developed an AI voice automation platform using Node.js, OpenAI, Twilio, and ElevenLabs.
• Automated outbound calls and analytics using scalable backend APIs.

• Optimized database queries (**PostgreSQL/Sequelize(ORM)) for faster performance and high availability.**

Kittrow Cryptocurrency Exchange Platform

• Built secure backend APIs for cryptocurrency transactions using Laravel and Node.js.
• Integrated external market data APIs and KYC verification workflows.

• Managed a team of backend developers, **ensuring code quality, best practices, and timely delivery of project milestones.**

TongueTingler – Food Franchise Platform

• Designed and implemented **backend architecture** for a food service franchise platform.
• Developed scalable APIs for menu management, orders, payments, and customer engagement.
• Implemented **secure authentication & role-based access control (RBAC)** authentication for customers, admins, and franchise users.
• Optimized PostgreSQL queries and deployed services using AWS with CI/CD pipelines.
• Designed CRM ↔ ERP data synchronization architecture.

Pros Marketplace – Freelancing Platform

• Developed a subscription-based job marketplace platform using Laravel, Node.js, PostgreSQL, and Stripe payment integration..
• Integrated Stripe payment gateway and role-based user access.

Education

Bachelor of Science in Information Technology (BSc IT)
Punjab Technical University (PTU) | 2013 – 2017
